

< Universal Tablet Mount

The universal Tab-Tite mount by Ram Mounts fits tablets including the Samsung Galaxy Tab, BlackBerry PlayBook, Dell Streak, and any tablet that will fit the cradle dimensions of 6.75" to 9" in height, maximum width of 5.31", and depth of 0.125" to 0.625". Support cups contain open slots to accommodate devices of various sizes, including tablets in protective sleeves. Spring-loaded tension provides secure support for the tablet, and the spring-loaded cradle allows for quick release of the tablet. There is full access to all ports while the tablet is in the mount. Price: \$28.47. www.ram-mount.com

SAMPLE

Mobile Shift Scheduling >

The Shiftboard iPhone app is a workforce scheduling tool that enables mobile managers to view all positions for any date range, filter status by confirmed or open shifts, view shift details, and check the location of any shift with a linked map. It allows mobile workers to check shift details, pick up open shifts, view all open positions, and pick up an open shift in real time. Price: \$24/month and up. www.shiftboard.com

Pocket Printers >

Brother Mobile Solutions, Inc., recently launched four new, full-size PocketJet mobile printers—the PocketJet 6, PocketJet 6 with Bluetooth wireless technology, PocketJet 6 Plus, and PocketJet 6 Plus with Bluetooth wireless technology. Features include faster printing at up to 6 ppm, optional Li-ion battery for increased battery yield and longer battery life, Bluetooth Imaging Protocol support for downloading and printing JPEG files, the ability to store document templates in the printer to minimize data transfer, and full-featured design software for creating and downloading the document templates.

They also feature high-quality 300 dpi printing for applications that require text and graphics. The PocketJet 6 printers, with 200 dpi resolution, provide a high-quality output while lowering the cost of mobile printing. Each printer comes standard with USB 2.0 and IrDA interfaces; a Bluetooth wireless technology interface is available as an option. Price: \$299 - \$529. www.brother-usa.com/mobile

Corporate Server for iPad <

Cortado's Corporate Server for iPad simplifies access to files in the corporate network based on user rights. It integrates those resources into the iPad to enable nearly all classic desktop functions for the enterprise user. Users can send documents from the corporate network to recipients from the iPad address book, query database reports, upload documents to the network, fax them, and convert files into PDF or ZIP. Everything can be centrally managed and tracked.

Price: \$119 including Update Service. www.cortado.com
